

## SHELF

**DESCRIPTION:** Shower shelf that eliminates the need for drilling during installation, protecting the walls from damage and avoiding the need for construction work. It is installed inserted in the joint between tiles in joint widths from 1 mm.

**MATERIAL:** Stainless Steel AISI 316 - Grado Marino, 1mm thick. PVD, textured and satin finishes.

**USE:** No-drill installation – eliminates the risk of pipe breakage or loss of waterproofing. Fast and efficient setup in under 30 minutes. Capable of supporting heavier-than-standard weights.

**MANUFACTURER:** ESTIL GURU S.L.U.
